- Integate a floor plan into the layout.

- Time controlled functions to swich the display on and off, i.e. over night.

- Customizable screen layout. Design your own background image and change fonts, font sizes and text colours.

PortSignum

room!MATE Signpost screens help visitors to find their way to the meeting rooms. They show all events of the day in chronological order with start time, end time, name or company name, event description and room name. A floor plan can be integrated into the layout enabeling visitors to go directly to their meeting room.
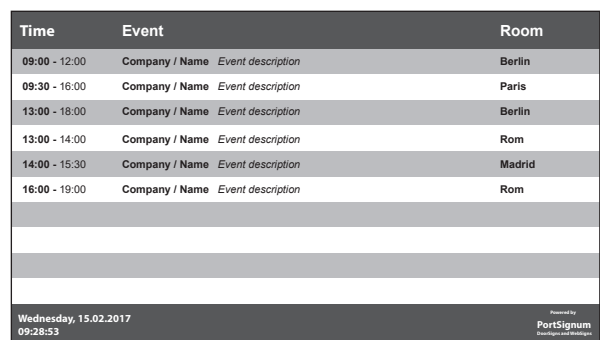

Install SignPost screens at all entry points with identical content or more screens side by side to show more reservations.

Select a screen size which fits best to the place of installation. Install the monitor in either landscape or portrait orientation.

The factory settings include four screen layouts for landscape and portrtait orientations. Change the background image and text formats to adapt the screen design to your requirements.

Layout for landscape with floor plan. Display of 10 events.

Layout for landscape without floor plan. Display of 10 events.

Layout for portrait with floor plan.
Display of 10 events.

Layout for portrait without floor plan.
Display of 15 events.

Note: A room!MATE SignPost screen consists of a monitor with FHD resolution and a small SignPost controller. PortSignum is supplying the SignPost controller, which is connected to the monitor via HDMI or DVI. The monitor itself is not part of the shippment.

Technical specification room!MATE SignPost

Product	Model	**room!MATE SignPost**
	Order number	9000006

Controller	Architecture	ARMv8
	Type	Quad-Core Cortex-A53, 1.2 GHz

Software	Operating system	Linux (read-only)
	Application	Controller for DoorSign Server Calendar software. Displays a list of reservations on a full-HD monitor
	HTML5 Support	yes

Interfaces	LAN	RJ45, 100 MBit
	Video	HDMI

Power supply	Voltage	5V DC, micro USB
	Power consumption	< 5 Watts

Environment	Operating temperature [°C]	0 to +40
	Operating humidity[%]	20 to 90, non condensing

Mechanical	Housing	Aluminium black
	Dimensions [mm]	90 x 38 x 66 [W x H x D]
	Weight [kg]	0,14

Certification	CE	Class A
	FCC	Class A
